

The Hydrodistillation Process

Liquid Essence presents a new palate of culinary flavors distilled from nature's finest ingredients. The Liquid Essence line of flavors is a rare treat for the senses, a way to experience the essence of tropical paradise with every drop.

Liquid Essence starts with the finest ingredients - fruits, spices & organic herbs, and adds pure water naturally filtered through ancient volcanic rock. Gently heating the mixture releases a vaporous steam that carries the plants' unique molecular structure to condense and collect as the hydrosol essence.

Liquid Essence hydro-distillations use only the finest glass apparatus, which gives our flavors their purity and distinct quality.

Experience the refreshing flavors of Liquid Essence, today!
